Dear Madam,

As a citizen concerned about antibiotic resistant bacteria, I urge you to ban the use of medically useful antibiotics in animal feed.

If this practice continues doctors may have no way to treat potentially fatal bacterial infections in humans.

Therefore I support the petition filed by CSPI. I hope you will consider this matter seriously as I believe it poses a grievous threat.

Yours truly,

Joan F. Wing

Dear Sir,

As a concerned citizen I realize that there are reasons both for and against irradiating some foods. However, I urge you to support prominent and clear labelling of these foods so the consumer will be able to make an informed choice.

Thank you for your attention.

Yours truly,

A handwritten signature in cursive script that reads "Joan F. Wing".
